Professional Summary

Motivated BSc (Hons) Computing student with hands-on experience in software development, web technologies, and IoT-based systems. Proficient in Java, Python, JavaScript, CSS, and SQL, with foundational knowledge of cloud computing. Strong in object-oriented programming and problem-solving, seeking internship opportunities.

EDUCATION

Islington College — BSc (Hons) Computing (2024– 2027)

- Relevant coursework: Information Systems, Programming, Logic & Problem Solving, Cloud & IOT, Databases, Software Engineering

Bagmati College (+2) — Management Stream with Computer Science (2022 – 2024)

- Relevant coursework: C Program, Flowchart and Algorithms, Lab work, Network and Security

Bagmati School (SEE) (2014 – 2022)

- Relevant coursework: Math, Science, Account, Social Studies

SKILLS

Languages & Concepts

- Java: OOP, Lambda, GUI development (Swing/JavaFX),
- Python: Data structures, scripting, and function
- JavaScript: React integration, basic frontend logic, interactive UI components
- SQL (Oracle, MySQL): Database design, ER modeling, joins, normalization, Joins, Subqueries
- CSS: Responsive design, Flexbox/Grid layouts, and styling React components.
- C: Structured programming, File Handler, Pointers

Tools & Frameworks

- AWS: EC2, S3 (Basic)
- Git & GitHub: Version Control, Branching, Merging
- Figma: UI/UX Design, Prototyping
- Oracle VirtualBox
- Linux/UNIX: Command Line, Shell Scripting, permissions, grip, alias

SOFT SKILLS

- Problem Solving, Communication, Time Management, Adaptability

Languages

- English, Nepali

CERTIFICATION

- Java Object-Oriented Programming – LinkedIn Learning (Digital)
- UI/UX with Figma Certification
- AWS Academy Graduate - Cloud Foundations, Data Engineering, Machine Learning Foundations, Machine Learning for Natural Language Processing Foundations, Generative AI Foundations - Training Badge

EXPERIENCE

Underwriting Intern Rastriya Jeevan Beema Company Limited, Kathmandu (2024 July - August)

- Assisted in evaluating insurance applications under the supervision of senior underwriters

PROJECTS

Inventory Pro (Full Stack)

- Inventory Pro System with Python Flask backend & React frontend. Features: JWT authentication, role-based access, real-time stock tracking, invoice generation.  [GitHub Link](#) – [Inventory-Pro](#)

Website (Frontend)

- Responsive E-commerce Website – Group project using HTML, CSS, JavaScript. Designed and developed a fully responsive interface.  [GitHub Link](#) – [E-commerce Website](#)

College Web Application (Full Stack)

- Developed a Flask–React college system with JWT authentication, real-time notifications, file uploads, and Zoom integration to streamline administration, teaching, and student engagement.  [GitHub Link](#) – [College-Web-App](#)

Console-based (terminal) application

- Menu-driven console app for wholesale business operations. Includes invoicing, file-based stock control, and sales tracking.  [GitHub Link](#) – [Inventory \(Terminal Base\)](#)
