Career Objective

Driven and adaptable developer with hands-on experience in web technologies, and full-stack application development. Seeking opportunities to design and build scalable, user-focused solutions while advancing my expertise as a developer. My long-term goal is to grow into a Cloud Solutions Architect and Tech Lead, leading the design of high-performance systems that address real-world challenges and strengthen Nepal's technology ecosystem.

EDUCATION

BSc (Hons) Computing **2024 — Present**
Islington College
London Metropolitan University
Kamal Marg, Kamalpokhari, Kathmandu

PERSONAL PROJECTS

TalentBridge — Job Portal Platform
Full Stack (React + Node.js + PostgreSQL + Socket.io)

- A full-stack job portal platform connecting job seekers with employers through real-time messaging, job posting, application tracking, and an admin dashboard. Features include JWT authentication, real-time notifications, social feed, and employer verification.

CineBook — Online Movie Ticket Booking System
Full Stack (Java JSP/Servlets + PostgreSQL)

- A web-based movie ticket booking system with interactive seat selection, dual payment gateway support (Khalti + eSewa), PDF ticket generation, and an admin dashboard for managing movies, showtimes, and bookings.

Chat App — Real-Time Messaging Platform (Live)
Full Stack (Next.js + TypeScript + Node.js + PostgreSQL + Socket.io)

- A feature-rich real-time messaging platform with passwordless OTP login, Google OAuth, group chats, emoji reactions, read receipts, typing indicators, and message deletion.

MediaTranscribe
Full Stack (Laravel + PHP + React + Inertia.js + PostgreSQL + FFmpeg + Whisper)

- A self-hosted media transcription app that runs entirely on-device: Whisper handles speech-to-text locally, FFmpeg extracts audio from video, and a database-backed queue processes uploads up to 300 MB in the background. Segments are editable with timestamps and exportable as SRT or TXT.

EXPERIENCE

1. Karmachari Sanchaya Kosh, Pulchowk - Lalitpur **August 2026 — Present**
Full Stack Developer Intern

- Developed EPF's internal Procurement Management System using ASP.NET Core MVC, Web API, Entity Framework Core, and Oracle as one of two developers.
- Implemented procurement and inventory workflows covering approvals, stock tracking, invoice verification, and payment recommendations, with role-based access and audit trails.
- Collaborated with the software development team on requirements analysis, SRS documentation, system architecture, and UML/ERD design.

2. Rastriya Jeevan Beema Company Limited, Kathmandu **July 2024 — August**
Underwriting Intern

- Assisted in evaluating insurance applications under the supervision of senior underwriters
- Reviewed client documents and helped ensure compliance with internal underwriting policies.

SKILLS

Languages & Concepts

- Java, Python, JavaScript, TypeScript, SQL, C, C#

Tools & Frameworks

- **Frontend:** React, Next.js, HTML5, CSS, Tailwind CSS
- **Backend:** Node.js, Express, Flask, ASP.NET Core, JSP/Servlets, .NET
- **Database:** PostgreSQL, MySQL, Oracle, Prisma ORM
- **Cloud & DevOps:** Vercel, Render, Neon, Git, GitHub, Linux

SOFT SKILLS

- Problem Solving, Communication, Time Management, Adaptability, Team Collaboration

CERTIFICATION

- **AWS Academy:** Cloud Foundations, Machine Learning Foundations, ML for NLP, Data Engineering Foundations, Generative AI Foundations
- **LinkedIn Learning:** Java Object-Oriented Programming
- **Islington College:** UI/UX with Figma
